20 May 1988

25X1

NOTE FOR: DDR&E Task Force

FROM: DDR&E/ICS

SUBJECT: Preparation for NIC Conference

cmte 23-SR

I need a bit of your help in the near term. (U)

Attached is a copy of some correspondence from the NIC regarding an Off-Site Conference they are having in June. [redacted] and I will be speaking Monday night, as the schedule indicates. [redacted]

25X1

25X1

Subsequently, Dave Gries, Vice-Chairman of the NIC called and asked that Bill and I included in our talks the following subject: broad-area search--how to request it, and what the problems are for COMIREX. [redacted]

25X1

I believe this latter point really is separate from the area of broad-area search. And I would like to expand the scope of the question so that it reads "What are the problems for COMIREX/SIGINT/MASINT/HUMINT"? As a result, I would appreciate it greatly if you would give me a few key thoughts to address this issue. [redacted]

25X1

I have asked D/REO to have an officer integrate this all together. You will see a copy of the product before I use it in mid-June. [redacted]

25X1

Thanks in advance for your help. [redacted]
